

Mini-Scanner

More information... quicker!

To prevent data errors!

MINIMIZE *the risk of manual input errors.*

NOTICE *the validity of your data on the screen during synchronization.*

OPTIMIZE *the use of bar-codes on the floor.*

APPRECIATE *the compact size (the size of a key-chain) and the affordable price of this portable model.*

CAPTURE *reliable data on your maintenance operations.*

RECEIVE *detailed information on interventions.*

STOP WASTING any information related to work!

Allow your employee to:

- **ACCOUNT** *for his own working hours*
- **TAKE** *out parts on work-orders*
- **CREATE** *new unforeseen activities*

and...

CONCENTRATE
yourself on your role as manager!

THE MINI-SCANNER, an indispensable tool and affordable way to improve and totally integrate your processes in **Interal**.

Its use automatically calculates labor and parts costs on work orders, thus improving the accumulated data related to your work.

Interal... Since 1989
